PERSONAL PROFILE

Aspiring junior software engineering in the middle of career change from procurement management position. I'm self thought and interested in software engineering closing in on one year experience. During my self-studies I gained knowledge in HTML, CSS, JS and currently working on personal project ORDER MANAGEMENT SYSTEM using MERN stack. My CRUD application will eliminate old-way of sending emails for manufacturing department , reduce unnecessary check-ups on order status because of real-time status tracking

WORK EXPERIENCE

2017 - Present

PROCUREMENT MANAGER
Unipuras, Kaunas

- Oversee all inventory and equipment purchases, identifying areas of potential savings.
- Create forecast of demand to be prepared for upcoming requirements.
- Review delivery orders to ensure supply is met, taking availability, cost, manufacturing process, and lead times into consideration.
- In first year implemented CRM/ERP system "AIVA"

2016 - 2017
